Name: Tauseef Mushtaque Ali Shaikh
Subject: Web Development Lab
Class: TECO

Roll No: 18CO63

Exp No: 9

Aim: Hosting the website with Domain Registration Process.

Screenshots:

1. Domain Registration

The screenshot displays the InfinityFree website interface for creating a new hosting account. The page is titled "Create a new Hosting Account" and features a "TeleSign" logo. The registration process is divided into three steps: "Step 1. Choose a domain name", "Step 2. Enter additional information", and "Step 3. Done". Under "Step 1", there are two tabs: "Subdomain" and "Custom Domain". The "Subdomain" tab is active, showing a text input field for the subdomain (containing "yourcustompc") and a dropdown menu for the domain extension (set to ".infinityfreeapp.com"). A "Search domain" button is located below the input field. A note states, "You can add more domains after your account has been created." At the bottom of the page, there is a section titled "Get a website customers trust." with a GoDaddy logo and a "Shop Now" link.

4. MySQL Database Upload

MySQL Databases

MySQL Databases allow you to store lots of information in an easy to access manner. The databases themselves are not easily read by humans; MySQL databases are required by many web applications including some bulletin boards, content management systems, and others. To use a database, you'll need to create it. Only your MySQL Username (same as your control panel login user) has privileges to access a database and read from or write to that database.

Create and remove MySQL databases for use on your account easily below

Create New Database

Currently using 1 of 400 available databases.

New Database:

Create Database

Delete a database

DELETE Database

Remove Database

Current Databases

MySQL DB Name	MySQL User Name	MySQL Password	MySQL Host Name	PHPMyAdmin
epiz_27271832_wdminproject	epiz_27271832	(Your vPanel Password)	sql304.epizy.com	Admin

Experiencing issues with phpMyAdmin? Log out of your control panel, clear cookies and sessions (not available in all browsers) and log back into your control panel and try again.
